

BIOTECH DAY

14th December 2023 9am-6pm

with l'Université de Strasbourg

9:30am-9:45am

OPENING SPEECH

A207

02

9:45am-10:30am

PLENARY SESSION

Unleashing the Potential of Human iPSCs and CRISPR - **A 207**

Kemal Arat - Bit.bio Discovery

03

10:30am-11:15am

PARALLELE SESSIONS

Toxoplasma gondii: multi-disciplinary approaches to investigate the traffic and the function of secreted GRA proteins - **A207**

Corinne Mercier - Grenoble University (videoconference)

Paleogenomics: a challenging but rewarding research into ancient humans and animals - **A 302**

Eva-Maria Geigl - Jacques-Monod Institute

04

11:15am-12pm

PARALLELE SESSIONS

Pre-clinical immuno-safety for cancer immunotherapies - **A207**

Michel Siegel - Roche

Generating impact in agriculture by self-fertilising crop - **A302**

Thomas Ott - Freiburg University

12pm-1:30pm

LUNCH BREAK - **A101**

05

1:30pm-3:30pm

PARALLELE SESSIONS

Microalgal biotechnology: From the idea to the product - **A 207**

Sammy Bouhouda - Fermentalg

Harmful Marine Microalgae: toxic threat and biotechnological opportunities - **A207**

Philipp Hess - IFREMER

WORKSHOP #1

Thesis or not thesis ? - **A302**

WORKSHOP #2

Simulated job interviews and resume proofreading - **D111**

3:30pm-3:45pm

COFFEE BREAK - **A101**

06

3.45pm-4:30pm

PLENARY SESSION

Forensic science 2.0 - **A207**

Sebastien Aguilar - Forenseek
