

# La Lettre de l'ESBS

## Admin' Corner

### ESBS admissions schedule 📅

#### Engineering Degree in Biotechnology

From March 04 to April 21 → Beginning of students' registration on the eCandidat platform

April 28th → Deadline to submit all of the documents supporting the application

June 16th → Candidates' interview

June 19th → Publication of the final results

#### Engineering Diploma in Chemical Biotechnology

From March 1st to May 12th → Beginning of students' registration on the eCandidat platform

May 22th → Deadline to submit all of the documents supporting the application

June 10th → Candidates preselection by the jury

June 26th → Preselected candidates are interviewed

June 27th → Publication of the final results

### Looking back on... 📸

At the Parc des Expositions, the ESBS participated in the [University and Post-Baccalaureate Program Day](#) from January 30th to 31st. Prospective students and parents were there to discover, with interest, our school, our diplomas, and also the admissions procedures. Thank you all! ❤

© ESBS

On March 1st, around 200 curious visitors were present for the open day to learn more about [biotechnology training](#), [life at the ESBS](#) and [professional opportunities](#). On the program: a tour of the school, scientific experiments and presentations of the ESBS.

# La Lettre de l'ESBS

Thank you to the students, associations, teacher-researchers, and administrative staff for their support on this occasion. ❤

## A new office for the ESBS school office

We're thrilled to tell you that the ESBS school's office has been refurbished! This is an opportunity to introduce you the "school's office desk", set up at the 1st door of the office to better welcome you and process your requests more efficiently. For any confidentiality request, it is still possible to enter the office during public opening hours → **Monday to Friday from 8am to 1pm.**

**School's office  
D422**

## Alumni Corner

### A new board for the ESBS alumni association

**Marie Vandroux**

President

**Kevin Letscher**

Secretary

**Emma Tixier**

Head of  
Communication

**Capucine Jezego**

Technical  
Advisor

**Céline Cavallo**

Technical  
Advisor

**Flora Carisey**

Technical  
Advisor

**Rebecca Leblay**

Technical  
Advisor

**Sanika Kulkarni**

Technical  
Advisor

**Sylvine Raverdy**

Technical  
Advisor

## Anniversary Dinner for classes ending in 5 ❤

For the second year, the ESBS alumni Association is repeating its "Anniversary Dinner" event. The classes of 1985, 1995, 2005 and 2015 are in the spotlight to celebrate their 10th, 20th, 30th, and 40th, years after graduation. The event will be held during the **2025 Biotech Weekend** (Biotech Day + Alumni Day) from November 7th to 8th. A networking session will be organized to meet the invited classes and [land an internship or job offer!](#)

**Contact** the alumni team and **book** your place → LinkedIn page

Saturday, November 8th

From 04:00pm to 06:30pm

## CSR and SDG\* Corner

*\*Corporate Social Responsibility and Sustainable Development*

Biotech students of the 2027 class are starting their first classes as part of the **University Degree in Environmental Engineering**! Students will be joining their companies for their 1st year internship with the aim of implementing the "*Diagnostic 360*" tool developed for the school.

## Program development this year 🌱

A new course slot has been set up with the visit of **Canop'Terre** (an educational garden) on April 10th. Students met each other on a permaculture field in Erstein. A good chance to discover an eco-friendly location dedicated to [agroecology!](#)

## Com' Corner

### ESBS international opportunities: let's get in touch

You're an **ESBS student** currently on an **internship abroad**? The school's communications team needs you to:

- 1.** **Broaden** the international internship image bank
- 2.** **Highlight** your internship project and missions to our partners
- 3.** **Promote** ESBS worldwide

**Contact us!**  
✉ [esbs-communication@unistra.fr](mailto:esbs-communication@unistra.fr)

## Focus Biotech'

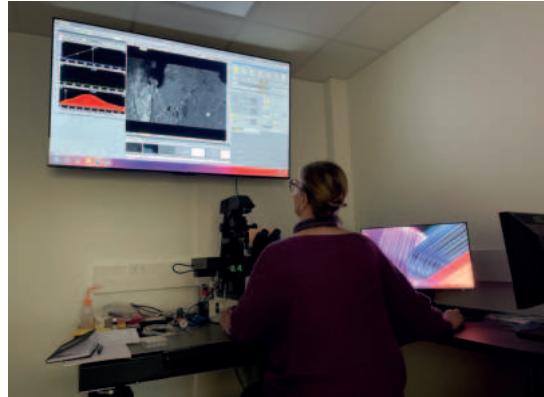

### The Biotech Hackathon is back

See you in **Bordeaux** from May 23rd to 25th for the **3rd edition of the Biotech Hackathon**. 7 teams composed of students from the seven participating engineering schools (ESBS, ESITech Rouen, IMP, ESTBB, SupBiotech, CPE Lyon and ENSTBB) will have 48 hours to take on an biotechnology challenge focused on **bioproduction**. Expert coaches from the industrial world will also be present to support the students in their thinking and motivate them in their project. To all the students: **enjoy your Biotech Hackathon!**

### New microscopy room at the ESBS

On the 2nd floor of the ESBS, **room D207**, you can find a brand new microscopy room! Precision, observation quality, innovation, technology development monitoring and skills development define very well this new microscopy room. The first users have been trained early April in order to help them make the most of the new equipment including the **Nikon Ti2-E**.

# La Lettre de l'ESBS

© ESBS

ESBS students will use this new room during their practicals at the school, while also being easily accessible to research teams and the ESBS Open Lab.

## Focus Alsace Tech

### Conference “Engineering healthcare” at ESBS +

On March 25th, ESBS hosted an Alsace Tech conference on **engineering healthcare**. Speakers from ESBS, CESI, Télécom Physique Strasbourg, Icam, and INSA Strasbourg shared their expertise on a wide range of topics:

- Innovative biotherapies,
- Biomechanics and prosthesis design,
- Artificial intelligence in hospitals.

© Alsace Tech

# La Lettre de l'ESBS

An evening full of exchanges, discoveries and networking. Many thanks to all the participants and the **Alsace Tech team!** ❤

## 2 days to understand artificial intelligence ☑

For 2 days, from 14th and 15th April, students from the **Alsace Tech network** will have the opportunity to follow a training course on **artificial intelligence**! Open to non-experts in the field, this **spring school** aims at understanding better the challenges associated with implementing use cases and equipping participants with good practices and tools. On the program: launching & de-risking an AI approach, framing & prioritizing use cases and collective work at the Manufacture des Tabacs in Strasbourg.

## A trinational summer school ↗

You want to **improve** or **begin learning German or French**? Alsace Tech has launched pre-registration for the trinational Summer School, **die Brücke**, from August 23rd to 30th in Strasbourg! A wonderful opportunity to enjoy an **intercultural experience**, take part in language workshops or discover the Upper Rhine in a different way. ❤
