

BIOTECH DAY

12th December 2024 | 9:30am-6pm

*Meet with professionals & companies
in biotechnologies!*

What is the **Biotech Day** ?

A whole day dedicated to **science & biotechnology**

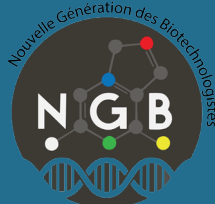

An opportunity to **network** with the industrial world of biotechnology

An event that brings together **talented young scientists** and **players in biotech**

CONFERENCES

ROUND-TABLE DISCUSSIONS

POSTER SESSION

The **Biotech Day** is an event organized at the ESBS by the student association «**Nouvelle Génération des Biotechnologistes**» (NGB) and the **Ecole supérieure de biotechnologie de Strasbourg**, in order to simplify interactions between students, researchers, companies and socioeconomic partners.

“

The **Biotech Day** was created in 2019 out of a common desire to **bring together students from the ESBS** with biotech companies and industrials, allowing them to **build contacts** and **get known**.

Georges ORFANOUDAKIS | Professor and former Director of the ESBS
